

SCALE HARBOR®

DISINFECTION | SCALE PREVENTION
Semi-automatic & Automatic

Say goodbye to the hassle and expense of scale buildup in your water system. Our SENCO Scale Harbor® is designed to prevent scale formation, protecting your pipes, fixtures and appliances from the detrimental effects of hard water.

With our innovative electrolysis technology, SENCO Scale Harbor® effectively breaks down scale-forming compounds, ensuring scale-free water throughout your water system. Enjoy the benefits of scale free water, long-term savings and enhanced system efficiency.

SEMI-AUTOMATIC

Manual self-cleaning system
