

SILVER IONIZATION WATER DISINFECTION EQUIPMENT

SENCO Silver Ionization is a trusted water disinfection technology that kills all pathogens and keeps drinking water safe and pure.

- **Standards:** Complies with WHO, EU & BIS norms; tested as per IS 10500 & IS 14543.
- **Water Quality:** No change in taste or smell.
- **Maintenance:** Prevents biofilm & algae, no tank cleaning needed.
- **Cost:** Low capital and operating cost.
- **Installation:** Works in both online & offline setups.
- **Patent & Recognition:** Patented (No: 2345/CHE/2010) and CSIR-NEERI recognized.

RD MODEL

S.No	Model	capacity LpH
1	SENCO RD1	250
2	SENCO RD2	500
3	SENCO RD3	1000
4	SENCO RD4	2000

Applications:

- RO Plants
- Water Dispensers & Coolers
- Water ATMs & Ice Making
- Packaged Drinking Water
- Food Processing
- Soda & Fizzy Drinks

ED MODEL

S.No	Model	capacity LpH
1	SENCO ED1	250
2	SENCO ED2	500
3	SENCO ED3	1000
4	SENCO ED4	2000

Provides a residual silver effect lasting over 2 days, ensuring no bacterial growth during this period.

Applications:

- Public water supply schemes
- Residential use with Corporation/Municipal water
- Post-RO or filtered municipal water
- Works with all storage-type purifiers for bacterial protection
